BLOCK 03 DESCRIPTION

Per Article 2, Definitions, of EU Regulation 1169/2011, labelling “means any words, particulars, trade marks, brand name, pictorial matter or symbol relating to a food and placed on any packaging, document, notice, label, ring or collar accompanying or referring to such food.” Labelling is an essential element of traceability. It is also the most direct form of communication between producers and consumers. As a space for communication, labelling becomes a political space where assuring a minimum height of its typographies can be the object of legal and consumers’ battles.
